

# SOLIDARITY FOR SHARED PROSPERITY

## WE CAN BUILD A GLOBAL ECONOMY THAT WORKS FOR ALL WORKING PEOPLE

Currently, we are caught in a vicious cycle. Corporate CEOs and financial elites capture the majority of the wealth our work creates and use it to influence government policies and set the rules of the global economy. The rich are getting richer while working people continue to struggle to make ends meet.

By acting together and organizing we can change the rules and create a global economy that promotes shared prosperity for all working people.

CORPORATE AGENDA	SHARED PROSPERITY AGENDA
Keep wages low and decrease labor standards for all workers.	<b>WAGE AND JOB GROWTH</b> led by public investment and broad opportunity.
Expansion of anti-worker free trade agreements like NAFTA and the TPP.	<b>PRO-WORKER TRADE</b> and <b>GLOBAL POLICIES</b>
Attack unions and the rights of working people to negotiate together.	<b>A COLLECTIVE VOICE</b> in the workplace and in government.
Cut social benefits and privatize public services.	<b>ECONOMIC SECURITY</b> for working people and their families.
Give tax breaks and loopholes to corporations and the 1%.	<b>AN END TO TAX HAVENS</b> for billionaires and global corporations.
Promote temporary migration programs that tie workers to a single employer.	<b>EQUAL PROTECTION</b> and strong legal rights for all workers.

In the United States, the labor movement is the leading force in the fight for a better global economic system. Unions in many different sectors are organizing workers throughout supply chains—from farmworkers and seafood processors to auto and retail workers—and speaking out together for rights at work, economic security and higher wages.

Through our unions, we can connect with workers globally to change the rules of the global economy. **Take action, get involved, be part of the campaign to change the rules and build a global economy that works for everyone!**
